

CUSTOMER SERVICE INSPECTION CERTIFICATE

FOR RESIDENTIAL CONSTRUCTION LOCATED IN SKYLINE RANCH ESTATES
SUBDIVISION, WIMBERLEY, TEXAS, AND SERVED BY THE SKYLINE RANCH
ESTATES WATER SUPPLY CORPORATION PWS 1050078

Street Name _____ Lot Number _____

Owner's Name _____ New Residence ___ Addition ___

I, _____, upon inspection of the private water distribution facilities connected to the Skyline Ranch Estates Water Supply Corporation public water supply, do hereby certify that, to the best of my knowledge:

- (1) No direct connection exists between the public drinking water supply and a potential source of contamination. Potential sources of contamination are isolated from the public water system by an air gap or an appropriate backflow prevention assembly in accordance with TCEQ regulations.
- (2) No cross-connection exists between the public drinking water supply and a private water system. Where an actual gap is not maintained between the public water supply and a private water supply, an approved reduced pressure-zone backflow prevention assembly is properly installed and a service agreement exists for annual inspection and testing by a certified backflow prevention assembly tester.
- (3) No connection exists which would allow the return of water used for condensing or cooling back to the public water supply.
- (4) No pipe or fitting containing more than 8.0% lead was used.
- (5) No solder or flux containing more than 0.2% lead was used.
- (6) Only the following piping materials were used in this installation:
Copper () PVC () Galvanized steel ()

I recognize that this document will become a permanent record of the Skyline Ranch Estates Water Supply Corporation and that I am legally responsible for the validity of this information I have provided.

Signature of Inspector _____ Title _____
